

The finishing Touch

Touch X

Get more, more, MORE...
from the Magic Multitasker.

Mirror, mirror
on the wall,
**who's the
glowiest of
them all**

Get you one that can do both

Welcome to the We-Vibe Touch X Lookbook 2021.

If beauty is in the eye of the beholder, then behold Touch X, the magic multitasker with the gorgeous silhouette that can do more, more, MORE than meets the eye.

By now, most of us know the benefits of an orgasm. It circulates blood, makes skin glow, keeps eyes bright, and nourishes hair.

What if there was some kind of tool that can offer pleasure AND beauty?

1. Hot Couture

Touch X for puffy eyes

Used intimately, Touch X stimulates the nerve endings and enhances blood flow. Your face has much of the same erectile tissue, and it responds in much the same way to a gentle massage. By promoting healthy circulation, Touch X can reduce puffiness around the eyes.

The result: a refreshed feeling and firmer facial skin. Better than facial yoga, and more fun to do.

Step 1

Ensure your face is clean and dry.

Step 2

Turn Touch X on and choose a medium intensity.

Step 3

Circle Touch X's pressure pad around your eyes, from outside to inside, including your eyelids.

Step 4

Move Touch X up the bridge of the nose and onto the forehead, following the natural contours of your brow.

**Your
late-night
beauty-call**

2. Shine on, you crazy diamond

Touch X for the Glow-Up

The beautiful curves of Touch X can be used to massage in lotions and serums more effectively than your fingers alone. Touch X combines silky-smooth silicone and powerful, reverberating vibrations to help serums glide onto your skin more thoroughly.

Step 1

Ensure your face is clean and dry.

Step 2

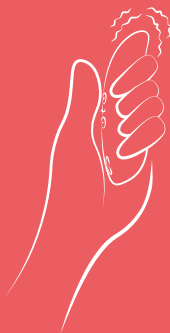

Apply a little serum to the tip of Touch X.

Step 3

Select a medium vibration intensity.

Step 4

Ease the serum onto your skin with circular, massaging motions.

Sex**

3. Workin' Hard, Or Hardly Workin'

Rest Assured, with Touch X's Five Minute Spa Treatment

It's hard to stay motivated when you're working from home. We all feel under this weird kind of pressure. We feel like we're not doing enough, and we're sure everyone knows. That's normal. Touch X can help you recharge and refresh, so you feel in complete control, at all times.

Step 1

Get a cool, refreshing face mist spray.

Step 2

Apply spray to face and décolleté. (Do it with a theatrical flourish, like a 17th Century aristocrat.)

Step 3

Turn on Touch X on a low-to-medium setting and massage the spray into your forehead, temples, nose, and neck.

Step 4

Breathe deeply.

**All eyes
on you**

4. Under cover

Level up your concealer game with Touch X

We-Vibe Touch X stimulates your blood flow, giving your skin a luminous glow. That's a fact. We all know a fresh, natural face is the perfect base for any makeup application. Mask-looking foundation, be gone! Plus: your flawless, fresh makeup will also last longer, staying perfect all day long!

Step 1

Apply the concealer to the desired areas.

Step 2

Turn Touch X on and select a medium setting.

Step 3

Massage the concealer into your skin, the vibrations will smooth it in and blend it perfectly.

Passionista

5. Holey sheet

Touch X takes the ick out of masking

Touch X makes applying sheets easier than ever – without sticking to your fingers. What's more, Touch X can be used to exfoliate your skin with a mild peel.
